

## INSTRUCTIONS FOR LUCKY BAMBOO GIFT KIT

1. Read the instruction booklet to learn how to care for your Lucky Bamboo.
2. Remove the Lucky Bamboo stalks and water-gel mixture from the bag and place into the ceramic container.
3. Position the Lucky Bamboo stalks in the container making sure the stalks touch the bottom of the container.
4. Remove the bag of small pebbles from the box and pour them around the stalks until you reach the top of the container. Use the large rocks for decoration on the top.
5. Fill the container with water until you see water visibly at the surface of the pebbles. This is how much water you need to keep in your arrangement all the time!
6. Place your new Lucky Bamboo arrangement in a place where it will receive no direct sunlight and enjoy!
